

HIOA BOARD

Policy on Transparency and Owner Participation

The HIOA Board agrees that its decisions should be made with ample opportunity for owner participation. To that end, the Board will strive to post on the HIOA website, one week in advance of any meeting, its agenda for the meeting; staff, committee, or other reports to be presented at that meeting; and any resolutions to be considered at that meeting. Items submitted after that date will be added to the website as soon as they are available.

The Board encourages owners to review the agenda and other documents and to contact a Board member with questions or suggestions before the meeting so that the Board may consider owners' opinions before voting.

For the convenience of interested members, HIOA will establish an email list so that those who wish can receive Board agendas, reports, minutes, and other documents electronically.

This policy reflects the Board's objective but does not bar it from considering at the meeting any matter within its jurisdiction. Where there is no urgency, however, the Board will carry over to its next meeting any matters that have not been available for owner review and comment.
