ISLAND NEWS

The Board continues to assess the Island's needs to determine which capital projects should be funded through a special assessment. Among the projects for which the Board is gathering information are the Ocean Marsh Bridge, the roads, the gatehouse, and control of marsh erosion threatening our roads. Currently, we are waiting for additional engineering reports and proposals to determine what projects and repairs should be funded by a special assessment and or those we can incorporate into our normal budgeting process. We are doing everything we can to keep the special assessment as reasonable as possible, realizing the financial burden owners have already faced as a result of Hurricane Matthew.

Our summer season is fast approaching and we've seen an increase in visitors. This trend will continue over the next few months because of the island's popularity as a vacation destination. Our swimming pools have all passed DHEC inspections and are now open for all to enjoy. The Beach and Racquet Club has plenty of bicycles to rent and our beaches are in good shape. We would also like to introduce our two new Pool Attendants. Imani Ladson and Amanda Bellnier, such great assets to "Team Susan!"
